

Ifö iCon Rimfree 3575

Ifö iCon Rimfree® is a smooth-side wall-mounted WC unit entirely without a flush rim, making it very easy to clean. The unique design makes the WC more hygienic – with no flush rim, bacteria and dirt has nowhere to gather. Ifö iCon Rimfree comes with Ifö Clean, our dirt-resistant glaze, and soft-close seat. It is sold with an installation system that can be set to 6/3 litre flush for optimal functionality. The installation system also includes Fresh WC. For maximum freedom of choice, the front cover is ordered separately.
