7462, 920x520 mm - for assembling on brackets or bathroom furniture

KeraTect is an extra layer of glaze that is added during a second firing. KeraTect removes those last little irregularities that are otherwise unavoidable in a natural material. The result is a completely smooth surface that provides absolutely no foothold for dirt of limescale.

Tolerance +/- 3mm

Fits to

Ifö Sense Art, Ifö Sense and Ifö Parade base cabinets and on bracket 96487.
