TOOTEKIRJELDUS

A tall, swivel spout for greater comfort and eco-friendly features to save water and money – our Eurosmart basin mixer is designed for modern bathrooms

Our best-selling Eurosmart collection has been updated to meet the needs of today's home. Refined and refreshed in both form and function for the demands of modern bathrooms, the new Eurosmart has a slim, contemporary profile and increased spout height for greater user comfort. This single-lever L-size basin tap is designed for single-hole installation. The useful pop-up waste is operated by a small rod on the back of the tap and allows easy opening and closing without getting your hands wet. The tall, tubular swivel spout adds extra space and flexibility for the user. Inside the GROHE SilkMove ceramic cartridge offers durable, precise volume and temperature control via the solid metal lever. The integrated temperature limiter saves energy, while GROHE EcoJoy technology reduces your water consumption to 5.7 l/min without compromising on performance. And the FastFixation installation system with flexible connection hoses means it can be fitted in minutes. Finished in the dazzling but hard-wearing GROHE StarLight chrome finish this bathroom tap will stay looking pristine for years to come.
