Kuupäev: **Sep 08. 2026**

TOOTEKIRJELDUS

A fresh new look for a bestseller – our Eurosmart basin mixer is a practical, comfortable modern bathroom tap with eco-friendly features

A classic reimagined – timeless and practical, the bestselling Eurosmart collection has a new face. Refined and refreshed in both form and function for the demands of modern bathrooms, the new Eurosmart has a slim, contemporary profile and increased spout height for greater user comfort. This single-lever S-size basin tap is designed for single-hole installation, and features a smooth body without waste, perfect for basins that do not require a retractable chain, a pop-up or push-open waste. Inside the GROHE SilkMove ceramic cartridge offers durable, precise volume and temperature control via the solid metal lever. The integrated temperature limiter saves energy, while GROHE EcoJoy technology reduces your water consumption to 5.7 l/min without compromising on performance. GROHE Zero isolated inner waterways ensure that water is lead- and nickel-free within the tap. And the FastFixation installation system with flexible connection hoses means it can be fitted in minutes. Finished in the dazzling but hard-wearing GROHE StarLight chrome finish this bathroom tap will stay looking pristine for years to come.
